SECTION 1: Identification

Product identifier

Product name: Dense Yttria Stabilized Zirconia Ceramic
Substance name: Yttria Stabilized Zirconia
Other names / synonyms: Yttria Stabilized Zirconia, YTZP; (YTZP2000, YTZP4000), PSZ

Recommended use of the chemical and restrictions on use

Technical Ceramic Components

Supplier’s details

Name: Superior Technical Ceramics
Address: 600 Industrial Park Road
St. Albans, Vermont 05478
USA
Telephone: 802-527-7726
Fax: 802-527-1181
Emergency phone number(s): 802-527-7726

SECTION 2: Hazard identification

This product is considered an article and does not pose any health hazard under normal use. The health effects listed below may be relevant when dust is generated during machining or other processing conditions.

Classification of the substance or mixture

Not a hazardous substance or mixture.

GHS label elements, including precautionary statements

Not a hazardous substance or mixture.

Other hazards which do not result in classification

Not a hazardous substance or mixture.

SECTION 3: Composition/information on ingredients

Components

1. Zirconium oxide
Concentration: 80 - 99 %
Other names / synonyms: Zirconium oxide
CAS no.: 1314-23-4
2. Yttrium oxide
Concentration 0 – 10 %
Other names / synonyms Yttrium Oxide
CAS no. 1314-36-9

3. Hafnium Oxide
Concentration 0 - 1 %
Other names / synonyms Hafnium Oxide
CAS no. 12055-23-1

SECTION 4: First-aid measures

Description of necessary first-aid measures

General advice Hazard is principally that of a nuisance dust only as a byproduct of machining. Coughing or shortness of breath may occur in cases of excessive inhalation.

If inhaled Move to fresh air and consult with local medical personnel if discomfort persists.

In case of skin contact Wash affected area with soap and water and consult with local medical personnel if irritation persists.

In case of eye contact Flush with tepid water for a minimum of 15 minutes and consult with local medical personnel if discomfort persists.

If swallowed Administer water to dilute, but not if person is unconscious. Consult with local medical personnel if discomfort persists.

SECTION 5: Fire-fighting measures

Suitable extinguishing media
Use any means suitable for extinguishing surrounding fire.

Special protective actions for fire-fighters
Use protective clothing and breathing equipment appropriate for the surrounding fire and to protect against the dust that may be dispersed in the air.

SECTION 6: Accidental release measures

Methods and materials for containment and cleaning up
Any dust from machining should be wet mopped or dry vacuumed.

SECTION 7: Handling and storage

Precautions for safe handling
Any dust from machining should be wet mopped or dry vacuumed.
SECTION 8: Exposure controls/personal protection

Control parameters

1. Inert or Nuisance Dust, Total dust*
   PEL (Inhalation): 15 mg/m³ (OSHA)
   OSHA Annotated Table Z-3, [www.osha.gov](http://www.osha.gov)

2. Inert or Nuisance Dust, Respirable fraction*
   PEL (Inhalation): 5 mg/m³ (OSHA)
   OSHA Annotated Table Z-3, [www.osha.gov](http://www.osha.gov)

*All inert or nuisance dusts, whether mineral, inorganic, or organic, not listed specifically by substance name are covered by this limit, which is the same as the Particulates Not Otherwise Regulated (PNOR) limit in Table Z1

Appropriate engineering controls
Local or general exhaust ventilation recommended.

Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection
Safety goggles in the presence of airborne dust.

Skin protection
Polymer gloves for prolonged dust exposure.

Respiratory protection
NIOSH/MSHA approved respirator for dust when exposure limit is exceeded.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

- **Appearance/form**: White, Light Yellow or Tan Solid
- **Odor**: Odorless
- **Odor threshold**: N/A
- **pH**: N/A
- **Melting point**: 2200°C (4000°F)
- **Initial boiling point and boiling range**: N/A
- **Flash point**: N/A
- **Evaporation rate**: N/A
- **Flammability (solid, gas)**: N/A
- **Upper/lower flammability limits**: N/A
- **Upper/lower explosive limits**: N/A
- **Vapor pressure**: N/A
- **Vapor density**: N/A
- **Relative density**: 5.9-6.1 g/cc
- **Solubility(ies)**: N/A
- **Partition coefficient: n-octanol/water**: N/A
- **Auto-ignition temperature**: N/A
- **Decomposition temperature**: N/A
- **Viscosity**: N/A
- **Explosive properties**: N/A
SECTION 10: Stability and reactivity

Chemical stability
Stable

SECTION 11: Toxicological information

No Applicable Information Found

SECTION 12: Ecological information

No Applicable Information Found

SECTION 13: Disposal considerations

Disposal of the product
This material is not hazardous per 40 CFR 261. Consultation with federal, state and local officials is recommended before disposal.

SECTION 14: Transport information

DOT (US)
Not dangerous goods

IMDG
Not dangerous goods

IATA
Not dangerous goods

SECTION 15: Regulatory information

US FEDERAL

TSCA
CAS# 1314-23-4 Zirconium Oxide is listed on the TSCA inventory.
CAS# 1314-36-9 Yttrium Oxide is listed on the TSCA inventory.
CAS# 12055-23-1 Hafnium Oxide is listed on the TSCA inventory.

SARA Section 302 Extremely Hazardous Substances
Substance Not Listed.

Section 313
Substance Not Listed.

OSHA:
None of the chemicals in this product are considered highly hazardous by OSHA.

US STATE

No Applicable Information Found
SECTION 16: Other information

Further information/disclaimer
Although reasonable care has been taken to provide accurate and current information in preparation of this document, Superior Technical Ceramics extends no warranties, makes no representation and assumes no responsibility for any loss, damage, or injury of any kind which may result from reliance of information provided in this document by any person.
