SECTION 1: Identification

Product identifier

Product name: Zirconia Toughened Alumina Powder (RTP)
Substance name: Zirconia Toughened Alumina
X(ZrO₂) • Y(Al₂O₃)
Other names / synonyms: Zirconia Toughened Alumina RTP, ZTA; (ZTA-02, ZTA-14, ZTA-20)

Recommended use of the chemical and restrictions on use
Raw material for technical ceramic components.

Supplier’s details

Name: Superior Technical Ceramics
Address: 600 Industrial Park Road
St. Albans, Vermont 05478
USA
Telephone: 802-527-7726
Fax: 802-527-1181
Emergency phone number(s): 802-527-7726

SECTION 2: Hazard identification

Classification of the substance or mixture
Not a hazardous substance or mixture.

GHS label elements, including precautionary statements
Not a hazardous substance or mixture.

Other hazards which do not result in classification
Not a hazardous substance or mixture.

SECTION 3: Composition/information on ingredients

Components

1. Aluminum oxide
   Concentration: 55 - 95%
   Other names / synonyms: activated Alumina; alpha-Alumina; Alumina; Aluminum oxide; Aluminum oxide (fibrous forms); Aluminum oxide (Powder or Fiber); ALUMINUMOXIDE
   CAS no.: 1344-28-1
2. Zirconium oxide
Concentration 2 - 35 %

Other names / synonyms Zirconium oxide
CAS no. 1314-23-4

3. Organic Binders
Concentration 3 - 10 %

Other names / synonyms Organic Binders

SECTION 4: First-aid measures

Description of necessary first-aid measures

General advice Production poses dust or machining swarf that may cause irritation to eyes, nose, throat, and/or skin.

If inhaled Move to fresh air and consult with local medical personnel if discomfort persists.

In case of skin contact Wash affected area with soap and water and consult with local medical personnel if irritation persists.

In case of eye contact Flush with tepid water for a minimum of 15 minutes and consult with local medical personnel if discomfort persists.

If swallowed Administer water to dilute, but not if person is unconscious. Consult with local medical personnel if discomfort persists.

SECTION 5: Fire-fighting measures

Suitable extinguishing media Use any means suitable for extinguishing surrounding fire.

Specific hazards arising from the chemical Possible Class A fire hazard – combustible vapors can develop in the headspace over the product. Flash point is 220°C (428°F).

Special protective actions for fire-fighters Use protective clothing and breathing equipment appropriate for the surrounding fire and to protect against the dust that may be dispersed in the air.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures Any dust from machining should be wet mopped or dry vacuumed.

Methods and materials for containment and cleaning up Any dust from machining should be wet mopped or dry vacuumed.
SECTION 7: Handling and storage

Precautions for safe handling
Any dust from machining should be wet mopped or dry vacuumed.

SECTION 8: Exposure controls/personal protection

Control parameters

1. alpha-Alumina (CAS: 1344-28-1)
   PEL (Inhalation): see PNOR (Cal/OSHA)
   OSHA Annotated Table Z-1, www.osha.gov

2. alpha-Alumina (CAS: 1344-28-1)
   REL (Inhalation): See Appendix D (NIOSH)
   OSHA Annotated Table Z-1, www.osha.gov

3. alpha-Alumina, Total dust (CAS: 1344-28-1)
   PEL (Inhalation): 15 mg/m³ (OSHA)
   OSHA Annotated Table Z-1, www.osha.gov

4. alpha-Alumina, Total dust (CAS: 1344-28-1)
   PEL (Inhalation): 10 mg/m³ (Cal/OSHA)
   OSHA Annotated Table Z-1, www.osha.gov

5. alpha-Alumina, Respirable fraction (CAS: 1344-28-1)
   PEL (Inhalation): 5 mg/m³ (OSHA)
   OSHA Annotated Table Z-1, www.osha.gov

6. alpha-Alumina, Respirable fraction (CAS: 1344-28-1)
   PEL (Inhalation): 5 mg/m³ (Cal/OSHA)
   OSHA Annotated Table Z-1, www.osha.gov

Appropriate engineering controls
Local or general exhaust ventilation recommended.

Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection
Safety goggles in the presence of airborne dust.

Skin protection
Polymer gloves for prolonged dust exposure.

Respiratory protection
NIOSH/MSHA approved respirator for dust when exposure limit is exceeded.

Thermal hazards
CO and CO₂ in a fire and at temperatures >220°C (428°F).

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance/form
White or Off White Flowable Powder
Odor Odorless
Odor threshold N/A
pH N/A
Melting point N/A
Initial boiling point and boiling range N/A
Flash point N/A
Evaporation rate N/A
Flammability (solid, gas) N/A
Upper/lower flammability limits N/A
Upper/lower explosive limits N/A
Vapor pressure N/A
Vapor density N/A
Relative density >1.1 g/cc
Solubility(ies) Insoluble in Water
Partition coefficient: n-octanol/water N/A
Auto-ignition temperature N/A
Decomposition temperature N/A
Viscosity N/A
Explosive properties N/A
Oxidizing properties N/A

SECTION 10: Stability and reactivity

Chemical stability
Stable

Hazardous decomposition products
CO and CO2 in a fire and at temperatures >220°C (428°F).

SECTION 11: Toxicological information

No Applicable Information Found

SECTION 12: Ecological information

No Applicable Information Found

SECTION 13: Disposal considerations

Disposal of the product
This material is not hazardous per 40 CFR 261. Consultation with federal, state and local officials is recommended before disposal.

SECTION 14: Transport information

DOT (US)
Not dangerous goods

IMDG
Not dangerous goods
SECTION 15: Regulatory information

US FEDERAL

TSCA
CAS# 1344-28-1 is listed on the TSCA inventory.
CAS# 1314-23-4 is listed on the TSCA inventory.

SARA Section 302 Extremely Hazardous Substances
None of the chemicals in this product have a TPQ.

Section 313
CAS# 1344-28-1 is reported under Section 313.

OSHA:
None of the chemicals in this product are considered highly hazardous by OSHA.

US STATE

CAS# 1344-28-1 can be found on the following state right to know lists:
Illinois, Minnesota, Massachusetts, New Jersey, Pennsylvania, Texas.
Consult your state and local resources for further information.

California Prop 65
Substance Not Listed

SECTION 16: Other information

Further information/disclaimer
Although reasonable care has been taken to provide accurate and current information in preparation of this document, Superior Technical Ceramics extends no warranties, makes no representation and assumes no responsibility for any loss, damage, or injury of any kind which may result from reliance of information provided in this document by any person.
