SECTION 1: Identification

Product identifier

Product name Dense Mullite Ceramic
Substance name Aluminum Silicate
Other names / synonyms Mullite Ceramic

Recommended use of the chemical and restrictions on use
Technical Ceramic Components

Supplier's details

Name Superior Technical Ceramics
Address 600 Industrial Park Road
St. Albans, Vermont 05478
USA
Telephone 802-527-7726
Fax 802-527-1181

Emergency phone number(s)

802-527-7726

SECTION 2: Hazard identification

This product is considered an article and does not pose any health hazard under normal use. The health effects listed below may be relevant when dust is generated during machining or other processing conditions.

Classification of the substance or mixture
Not a hazardous substance or mixture.

GHS label elements, including precautionary statements
Not a hazardous substance or mixture.

Other hazards which do not result in classification
Not a hazardous substance or mixture.

SECTION 3: Composition/information on ingredients

Components

1. Mullite
Concentration 75 - 95 %
Other names / synonyms Mullite
CAS no. 1302-93-8
2. Glassy Phase
Concentration 5 - 25 %
Other names / synonyms Glassy Phase
CAS no. 60676-86-0

SECTION 4: First-aid measures

Description of necessary first-aid measures

General advice Production poses dust or machining swarf that may cause irritation to eyes, nose, throat, and/or skin.

If inhaled Move to fresh air and consult with local medical personnel if discomfort persists.

In case of skin contact Wash affected area with soap and water and consult with local medical personnel if irritation persists.

In case of eye contact Flush with tepid water for a minimum of 15 minutes and consult with local medical personnel if discomfort persists.

If swallowed Administer water to dilute, but not if person is unconscious. Consult with local medical personnel if discomfort persists.

SECTION 5: Fire-fighting measures

Suitable extinguishing media Use any means suitable for extinguishing surrounding fire.

Special protective actions for fire-fighters Use protective clothing and breathing equipment appropriate for the surrounding fire and to protect against the dust that may be dispersed in the air.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures Any dust from machining should be wet mopped or dry vacuumed.

Methods and materials for containment and cleaning up Any dust from machining should be wet mopped or dry vacuumed.

SECTION 7: Handling and storage

Precautions for safe handling Any dust from machining should be wet mopped or dry vacuumed.

SECTION 8: Exposure controls/personal protection
Control parameters

Products Not Specifically Listed By Substance

1. Inert or Nuisance Dust, Total dust*
   PEL (Inhalation): 15 mg/m³ (OSHA)
   OSHA Annotated Table Z-3, www.osha.gov

2. Inert or Nuisance Dust, Respirable fraction*
   PEL (Inhalation): 5 mg/m³ (OSHA)
   OSHA Annotated Table Z-3, www.osha.gov

*All inert or nuisance dusts, whether mineral, inorganic, or organic, not listed specifically by substance name are covered by this limit, which is the same as the Particulates Not Otherwise Regulated (PNOR) limit in Table Z1

Appropriate engineering controls
Local or general exhaust ventilation recommended.

Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection
Safety goggles in the presence of airborne dust.

Skin protection
Polymer gloves for prolonged dust exposure.

Respiratory protection
NIOSH/MSHA approved respirator for dust when exposure limit is exceeded.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

SECTION 10: Stability and reactivity

Chemical stability
Stable

SECTION 11: Toxicological information

No Applicable Information Found

SECTION 12: Ecological information

No Applicable Information Found

SECTION 13: Disposal considerations

Disposal of the product
This material is not hazardous per 40 CFR 261. Consultation with federal, state and local officials is recommended before disposal.

SECTION 14: Transport information

DOT (US)
Not dangerous goods

IMDG
Not dangerous goods

IATA
Not dangerous goods

SECTION 15: Regulatory information

US FEDERAL

TSCA
CAS# 1302-93-8 is listed on the TSCA inventory.
CAS# 60676-86-0 is listed on the TSCA inventory.

SARA Section 302 Extremely Hazardous Substances
Substance Not Listed.

Section 313
Substance Not Listed.

OSHA:
None of the chemicals in this product are considered highly hazardous by OSHA.

US STATE

No Applicable Information Found

California Prop 65
No components on list.
SECTION 16: Other information

Further information/disclaimer
Although reasonable care has been taken to provide accurate and current information in preparation of this document, Superior Technical Ceramics extends no warranties, makes no representation and assumes no responsibility for any loss, damage, or injury of any kind which may result from reliance of information provided in this document by any person.
